Rules concerning Husbandry.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these Signs, Aries or Aquarius in the beginning of the Spring, by latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sawn in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-setts, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio; and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carrot-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Set Cucumbers and Melon seed, not above one fath in depth, from the first of April to the 20 in the increase of the Moon.

Excellent Notes of Husbandry and Gardening, for every Month in the Year.

In January cut down Timber (and it shall not chink nor be eaten with worms) in the last quarter of the Moon set of some Kernels, and Berries of Bay-trees, Privet, and Box. Set Quince-trees, Rose-trees, Peaches, Filberts and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: some set Beans and Pease, and dung land in the last quarter: get Cattel to rear, fallow land for Wheat and Rye: Trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesome diet be your Physician, moderate exercise and labour your salve to cause appetite.

February.

Now sow all sorts of Pease and Beans, and other Pulse, some Mustard-seed, cast up ditches, set and plant Vines, Hops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from moss, canker, and all superfluous Branches. Graft in the latter end of the month, some Onions in cold stiff land: Take heed of cold, forbear legmatick meats.

March.

In the new of the Moon (the wind any but North or South) graft Pear, Warden, or Apple-trees: make an end of sowing all manner of Pulse, and begin to sow Oats, Farley, Barleys, Onions, Cauter

Woodhouse, 1689.

536

Carrots, Cucumbers, Melons, and all kind of Pot-herbs, Asy Betichokes and Sage, geild Lambs, let bleed according to strength and necessity, the sign and weather also being st (but take advice of the learned Physickian) such what disease cannot be cured in the Springtime by physick, will hardly be cured all the year after.

April.

Sow Barley, Oats, and Flax, sow Hops, let sand sow all kind of Garden herbs, open Hives, and let Bees labour for their living, let Tanner's now provide them for Bark, and all good Housewives look to their Dairies; bleed and purge with advice: those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

Sow Barley on all light lands and bearing grounds and likewise Oats and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, let land for Wheat and Rye, leave lopping of Trees, teach Hops to climb, but cut off the superfluous branches, Mow early, milk the Kells, especially by running streams, Oats and sweet Butter is now an excellent breakfast, Oats and clarified Oyle, as also Scorpy-grass, Ale, and Mozambique Beer, are wholesome drinks to be drunk fasting.

June.

Shear Sheep, bring home fuel, weed Corn and Carrots, let Rosemary, Carnations, and Gillyflowers, sow Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make hay, carry Sand, Lime, Marl, and Manure, of what kind soever besetting your land, cut neither hedge nor Tree in this and the two next months, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

Wood-house, 1689.

July.

Apply making and getting in of hay, pull Hemp that is ripe, gather Garden Beans, get Rye, and Moxmills, and Saul to breed on your flays, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extreme thirst, and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Art,
Else in the Winter live poor, and in want.

August.

Follow close your Corn harvest, lodge Winter herbs in the nets of the Moon, gather Garden seeds, make Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

In the beginning of this month, and end of the former, gather Hops when they may be broken, the weather being fair, and no dew on the ground, kill Wees, make Mergence, sow Wheat and Rye, remove and set all slips of flodders between the two Lady-days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the nets of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, for bear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

Sow Wheat and Rye, the sooner the better, for fear of rain, set Beans and Buts, gather Winter fruit, the weather dry, in the afternoon, and in the wane of the

the **Wren**. Cut Rose-trees, if you desire to have Ro-
of **Roses**, do this once in two years, refuse not any
needful physick at the hands of the learned, and use all
moderate sports to revive the vital spirits to the ser-
vice of **God** only.

November.

M The Mault, kill Dogs, trench Gardens with dung, set Crab-tree Stocks, sow Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholesome meat and drink, with good exercise to preserve health.

December.

In this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and hoymes, with old rotten horse-dung, look well to your cattel, water and keep moist your meadows, let horses bleed, and to continue, drink good wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoicing that God sent his only begotten Son about this time into the world, to save all such as lay hold on him with a true and libely faith.
